

Project Manager

Salary: £60K-£80K plus benefits, pension (7% contribution), 25 days holiday & life insurance

We are looking for a talented, passionate, forward-thinking, and highly motivated individual to join a growing management and technical consultancy and progress based on project delivery.

The Role:

As a Project Manager you will be reporting vital project management information to clients, company directors and staff.

Responsibilities will include:

- Managing a range of Frameworks and Projects predominantly within the Defence environment.
- Defining the project objectives and overseeing quality control throughout its lifecycle.
- The end to end management of Technical projects according to best practice principles by planning, executing, and closing projects according to strict deadlines and timescales.
- Delivering of projects to time and cost budgets.
- Support the project teams through review of plans and proposals ensuring value for money and ensuring delivery of plans is as required.
- Building new relationships and maintaining successful working relationships with our current customers.
- Maintain working relationships with your project teams and third-party suppliers.
- Identifying and winning work in line with the company business objectives.
- Working organically in customer teams to deliver rapid turn-around projects, or to plan and deliver tasks.

About You:

The successful candidate must be able to demonstrate the following attributes:

Essential

- This role requires a technically astute Project Manager who can make a real difference working in a dynamic, ever changing environment.
- Possess superior Project Management skills with a high level of accuracy and attention to detail.
- Previous experience managing multiple concurrent technical projects through the full lifecycle.
- Good knowledge of PRINCE2 and Agile Project Management
- Project Management Qualifications e.g. PRINCE2 and Agile Project Management
- Be organised and ability to work under pressure with minimal supervision.
- Strives to deliver ahead of targets.
- Be a trusted self-motivated individual who can perform when working as part of a team or when acting independently with support from colleagues.
- Be dependable, committed and have a genuine enthusiasm to contribute to the growth of a successful business.
- Be articulate with good presentation skills.
- Have excellent communication skills, both verbal and written, with strong stakeholder management and influencing skills.

Desirable:

- Have a Defence operator/practitioner background.

- Be a member of an appropriate professional body (e.g. APM, PMI) and have a desire for further professional development.
- The ideal candidate will be educated to degree level or have equivalent relevant experience.

Other requirements:

- Candidates must have an existing right to live and work in the UK.
- Candidates will need to undergo an internal BPSS check prior to gaining site access.
- Candidates will also need to either hold a current SC clearance or be willing and eligible to undergo a Security Clearance check (SC level) upon starting their employment with the company. To gain SC clearance you will normally need at least 5 years' UK residency.
